the Barnside Tavern
To our friends & patrons

In autumn of 1972, we created an original
Tavern at the Assinippi Crossroads to serve
you and the community.

With no hint of how to do it and no idea
of what would happen, we started. Two barns,
a 1760 house, two hundred of the finest kitchen
and service personnel, a bucket of tears, a
barrel of laughs and six years later we still
exist and are getting better by the day.

On the next few pages see what we are now
offering and how far we have come in our efforts
to serve you.
